

Lubrizol 606

TC-U

Lubrizol Two Cycle Oils

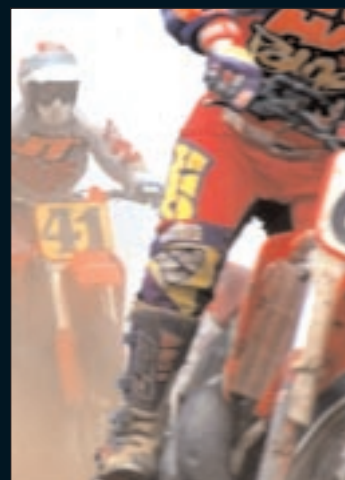

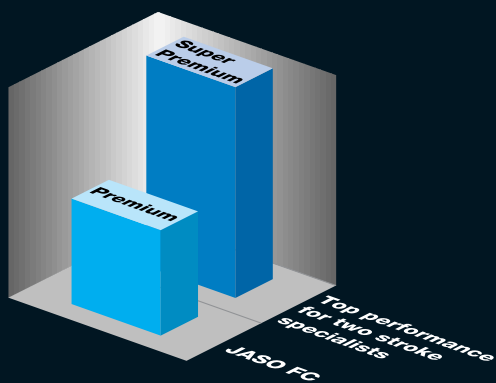

Key benefits of Lubrizol 606 TC-U

- **Ultra-high performance for specialist formulators** producing superior two cycle oils and high value-added products
- **Performance exceeding the "Global GD" standard**, the industry's highest proposed performance tier
- **Complete confidence for lubricant marketers and end-users** whatever the application or usage conditions
- **Exceptional performance at very low ash levels**
- **A neutral odour and light colour**
- **Worldwide availability for global marketers** who need excellent logistics and quality control.

Please refer to Lubrizol for technical summaries, reports, and recommended formulations.
